Website: www.twk.gov.za

Dear Sir/ Madam

REQUEST FOR FORMAL WRITTEN PRICE QUOTATIONS
QUOTATION NUMBER: LED 02/2025/26

Kindly furnish us with a written quotation for: **LED 02/2025/26 - SUPPLY AND INSTALLATION OF MINOR INFRASTRUCTURE ITEMS AT THE VILLIERSDORP TAXI RANK.**

The detailed project description and schedules are attached or can be obtained from **Mr. Stalin Govender** at Tel: **028 214 3300** or e-mail: stalingo@twk.gov.za as well as technical enquiries

A formal quotation must be submitted on the original documents and must have attached all relevant signed schedules and additional information as requested. Failure to do so will result in the quotation to be rejected. The quotation must be in a sealed envelope and clearly marked: **Tender Box No. 2**, for attention: **Mr. Stalin Govender**, **QUOTATION NO: LED 02/2025/26** and the service provider's name and address. Quotations will not be accepted if they don't comply with the marking instructions. Fully completed Quotations must be placed in tender box **No. 2** at the **Main Entrance** of Theewaterskloof Municipality, 6 Plein Street, Caledon by no later than **12:00 on Monday, 13 April 2026**, immediately after which the quotations will be opened, and the opening results will be published, within three (3) days after the closing date, on the Theewaterskloof Municipality's website (www.twk.gov.za)

Compulsory Site Meeting:

- A compulsory site meeting will be held on Wednesday, 08 April 2026; and
- Attendees are to meet at the Villiersdorp Town Office, 59 Main Road, Villiersdorp at 10:00 AM.
- A 15-min grace period will be allowed till 10:15 for bidders to join.

1. Standard Conditions of Quotation:

The following conditions will apply:

- a) Price(s) quoted must be valid for at least sixty (60) days from closing date.
- b) Price(s) quoted must be firm and must be inclusive of VAT, clearly indicating Price, VAT and Total Price.
- c) **The project must be completed within 28 Calendar Days of appointment.**
- d) This quotation will be evaluated in terms of the 80/20 preference point system as prescribed in the Preferential Procurement Regulations of 2022 and for this purpose **MBD 2, MBD 4, MBD 6.1, MBD 8 and MBD 9** forms which are available on the Municipal Website www.twk.gov.za must be completed and submitted together with your quotation.
- e) The successful provider will be the one scoring the highest points.
- f) A **Valid Tax Compliance Status Pin Certificate** and a copy of your **latest Municipal Account or Lease Agreement** should be attached to your quotation.
- g) **The Municipality reserves the right to accept a Quotation in full, partially or not at all and is not obliged to accept the lowest Quotation received.**
- h) Payments will be made not later than 30 days, after the receipt of a tax invoice.
- i) Invoices must not be issued before goods / services have been supplied / rendered.
- j) The General Conditions of Contract will apply to this quotation.
- k) Calculation errors will be corrected by the Municipality by using the unit prices.
- l) If a valid Certified B-BBEE certificate, EME or QSE affidavit is not attached, it will be interpreted that the preference points for B-BBEE status level or contribution are not claimed.
- m) If a valid Certified B-BBEE certificate, EME or QSE affidavit is attached and points are not claimed in terms of the MBD 6.1, it will be interpreted that the preference points for B-BBEE status level or contribution are not claimed.
- n) Please note that the Municipality will not request a valid certified B- BBEE certificate or Sworn Affidavits if such is not attached to the bidder's tender at closing date of this tender.

- o) If the bidder fails to provide proof of a Municipal Account or Lease Agreement in the name of the bidder, where locality points are claimed, it will be interpreted that locality points will not be awarded.
- p) The municipality reserves the right to appoint the bidder scoring first, second and third highest preference points at any time during the duration of the contract. When the tenderer scoring the highest points cannot perform on the contract, the municipality has the right to purchase from the tenderer scoring the second highest points and if the second highest points scorer cannot perform on the contract, the municipality reserves the right to purchase from the tenderer scoring the third highest points.
- q) No alternative offers will be accepted.

2.1 Eligibility Criteria

Only bidders who satisfy the following criteria are eligible to submit an offer: **(This is a requirement on submission of bid).**

2.1.1 Pricing Instructions

In order to be considered for a contract in terms of this quotation, the bidder must price on all the items in the schedule of services required and sign to declare compliance. Where no price is charged, bidders must indicate a zero (0) rate. Any item left blank or marked with anything other than a written zero rate will be considered incomplete, and the tenderer may be disqualified.

2.1.2 Scope of Works

In order to be considered for a contract in terms of this quotation, the bidder must sign and declare compliance by **Schedule 1**.

2.1.3 Specifications

In order to be considered for a contract in terms of this quotation, the bidder must sign and declare compliance by **Schedule 2**.

2.1.4 Reference letters

The bidder must provide three (3) contactable references where above mentioned was done, two (2) of the three (3) references must indicate that the bidder's services was satisfactory. It is the bidder's responsibility to ensure that they provide reachable references. The municipality will contact references to obtain the level of performance. Contactable references must be attached to **Schedule 3**.

2.1.5 Special Conditions of Quotation

In order to be considered for a contract in terms of this quotation, the bidder must sign and declare compliance by **Schedule 4**

2.1.6 CIDB Grading

In order to be considered for a contract in terms of this quotation, bidders must be registered at the Construction Industry Development Board (CIDB) and must have at least a Grading of 1GB.

For lighting installations, the bidder must provide proof of a registered electrical contractor/qualified electrician (in-house or subcontracted) who will execute the electrical works and provide the required compliance documentation upon completion.

2.1.7 Attendance Compulsory Site Meeting

In order to be considered for a contract in terms of this quotation, bidders are required to attend the Compulsory Site Meeting. Failure to do so will result in being disqualified for further evaluation.

3. The Employer's Undertakings

3.1 Tests for Administrative Compliance

Bidders may be found non-compliant if, inter alia: (these documents may be requested)

- The bidder has failed to complete and sign and attach requested information to all schedules not excluded in eligibility criteria.
- The bidder has failed to submit the MBD 2, MBD 4, MBD 8 and MBD 9 forms.
- The bidder has failed to submit a municipal account of where the head office of the company is registered or in case where the premise is leased, the bidder has failed to provide a copy of the lease of the premise;
- The bidder has failed to submit a valid Tax Compliance Status Pin Certificate, a valid Tax Compliance Status Pin Certificate may be requested; and
- The bidder has failed to submit a valid certified B-BBEE certificate or sworn affidavits, whereas points were claimed and a copy of certificate or affidavit was supplied, a certified copy of the B-BBEE certificate or sworn affidavit may be requested.

**NB: No quotations will be considered from persons in the service of the state
Failure to comply with these conditions may invalidate your offer.**

Yours faithfully

**SIGNATURE
SUPPLY CHAIN MANAGEMENT**

SCHEDULE OF SERVICES REQUIRED

<u>ITEM NO.</u>	<u>DESCRIPTION</u>	A	B		A & B	
		<u>ESTIMATED QUANTITY</u>	<u>UNIT PRICE EXCL VAT</u>		<u>PRICE EXCL VAT</u>	
			R	c	R	c
1.	Site establishment, OHS compliance, temporary barricading/cones and warning signage for duration of works	1				
2.	Setting out, measurement and levels for paving areas, trading bays, signage positions and road markings (incl. confirmation with Employer/Traffic)	1				
3.	Site clean-up, removal of rubble/spoil and disposal at approved facility (as required)	1				
4.	Excavate/trim, level and compact subgrade for paving to required falls (allow for minor cut/fill)	98 m ²				
5.	Supply and place bedding layer (sand / crusher dust) and compact to receive pavers	98 m ²				
6.	Supply and install 50mm interlocking cement pavers complete (laying, jointing, compaction and finishing)	98 m ²				
7.	Supply crusher dust / selected material base layer (20mm) complete (spread and compact)	98 m ²				
8.	Supply and install edge restraints/kerbing to paved area to prevent spreading (incl. concrete haunching)	50 m				
9.	Paint demarcation of informal trading bays with borders (3m x 3m squares) including bay numbering	10				
10	Supply and install outdoor benches 1.2m (two-seater) with backrest and armrests (weather/UV resistant), fixed/anchored	10				
11	Supply and install eco-friendly outdoor litter bins (single unit), heavy-duty and vandal-resistant, lockable, weatherproof, 60–120L capacity. Bin body/planks to be manufactured from recycled plastic and sawdust (Pollywood-type material, similar look/finish to benches) and be maintenance-free; colour to be brown/neutral and integrated in extrusion process. Lid to be flip/rotating or equivalent baboon-resistant design. Lock to be installed inside the bin (not visible to the public) and to operate with a universal key for all bins. Hinges, hinge bolts and exposed fixings to be tamper-proof; fasteners to be stainless steel and/or anti-theft snap-off screws / shear bolts. Bin to hold a municipal black bag with internal bag retention. Bin body to be manufactured without side slots to prevent bag blowout in windy conditions. Include anchoring/fixing to concrete slab/base (where required).	6				
12	Traffic Signage: Stop Sign (Sign Code: R1) incl. galvanised pole (76mm), concrete footing and anti-theft fixings	2				
13	Traffic Signage: One-way (Left/Right) (Sign Code: R103/R104) incl. galvanised pole (76mm), concrete footing and anti-theft fixings	2				
14	Traffic Signage: Speed Limit 10 km/h (Sign Code: R201-60) incl. galvanised pole (76mm), concrete footing and anti-theft fixings	1				

15	Traffic Signage: Taxi Rank Reservation (Sign Code: R303-P) incl. galvanised pole (76mm), concrete footing and anti-theft fixings	1				
16	Traffic Signage: Limit of Vehicles (Sign Code: R209) incl. galvanised pole (76mm), concrete footing and anti-theft fixings	1				
17	Public Safety Signage: Pedestrians (Sign Code: W306) incl. galvanised pole (76mm), concrete footing and anti-theft fixings	1				
18	Information Signage: (Sign Code: IN11) incl. galvanised pole (76mm), concrete footing and anti-theft fixings	1				
19	Information Signage: "No Littering" signs (SABS 1186-1) incl. galvanised pole/fixture and anti-theft fixings	2				
20	Surface preparation/cleaning for road markings (driveways and internal circulation) prior to painting	120 m²				
21	Apply high-build reflectorised road marking paint complete (general markings)	120 m²				
22	Pedestrian crossing markings (GM1) complete	12 m²				
23	Directional arrows (RM13) complete	4				
24	Bay/dividing lines and edge lines (GM2) complete	150 m				
25	Taxi bay lettering (RM8 "TAXI") complete	6				
26	SWA armoured cable 16mm x 4 core	70m				
27	Trench	70m				
28	6mm bare copper earth wire	70m				
29	80 LEDNW - 212W - 30043lm beca schreder lights 220-240 v	3				
30	9m galvanize street light pole with base	1				
31	Contactor for street light controls	1				
32	30A 3 phase circuit breaker	1				
33	Day light switch eye	1				
34	Bypass switch	1				
35	Pole box for water tite connections	1				
36	Final clean-up and handover, including removal of temporary works	1

NAME OF BIDDER:

DATE:

**SCHEDULE 1:
SCOPE OF WORKS**

1	Site Establishment, Setting Out and General Requirements • Attend a site handover with the Employer's Representative and confirm final locations, quantities and sequencing on site. • Establish site, provide all tools/plant, and keep the taxi rank operational and safe for taxis, pedestrians and informal traders at all times. • Provide all required temporary barriers, cones, warning signage and traffic accommodation/management inside the facility during the works. • Comply with the Occupational Health and Safety Act and all applicable municipal by-laws; keep the site neat and remove rubble/waste regularly. • Complete all works within the required contracting specifications in the quotation document.
2	Traffic, Information and Public Safety Signage • Supply, manufacture, deliver and erect all traffic regulatory, warning, information and public safety signs as per the Traffic Department schedule and SADC/SARTSM codes (including but not limited to: R1, R103/R104, R201-60, R303-P, R209, W306 and IN11). • All sign faces to be manufactured from minimum 1.4 mm chromadek steel with Class 1 retro-reflective sheeting; all signs mounted on 76 mm diameter hot-dip galvanised steel poles with top caps. • Fix signs with stainless-steel tamper-proof/anti-theft fasteners; install at correct heights and offsets, plumb and level. • Supply and install ancillary signs (e.g. SABS 1186-1 'No Littering' / 'No Smoking' where required) and any fire safety directional signage where applicable. • Confirm final sign locations with the Employer and Traffic Department prior to installation.
3	Road Markings and Painted Demarcation • Prepare surfaces (clean, dry, free of dust/oil) and apply road marking paint to driveway and internal circulation areas of the taxi rank. • Use reflectorised high-build road marking paint complying with SANS 731-1; apply to the required thickness and finish suitable for high-wear public facilities. • Provide and paint, where applicable: pedestrian crossing (GM1), directional arrows (RM13), dividing lines (GM2) and 'TAXI' bay lettering (RM8) as indicated by the Employer/Traffic Department. • Protect fresh paint until cured and reinstate the area to safe use.

4	Construction of Informal Trading Bays (Paving Works) • Construct informal trading areas by supplying and installing cement pavers to the indicated extent (approximately 98 m²) including supply and placement of crusher dust bedding layer and all required compaction. • Excavate/trim and level subgrade; compact to a firm even platform; install edge restraints where required to prevent movement. • Lay pavers in a neat, uniform pattern with tight joints; broom in jointing material and compact to final levels; ensure positive drainage and no ponding. • After paving, paint and mark trading bays with borders in 3 m x 3 m squares, including numbering of bays as directed by the Employer.
5	Supply and Installation of Public Amenity & Waste Management Items • Supply and install eco-friendly outdoor benches (approximately 10 units) 1.2 m (two-seater) with handrails and backrest (grey colour) in positions indicated by the Employer. • Benches to be suitable for outdoor public use (weather/UV resistant) and securely fixed/anchored to prevent theft and movement. • The service provider must supply and install six (6) eco-friendly outdoor litter bins at the Villiersdorp Taxi Rank at locations indicated by the Employer. • Litter bins must be heavy-duty, vandal-resistant, lockable and weatherproof, with a capacity of 60–120 litres, and suitable for use in open public spaces. • Bins must be manufactured from recycled plastic / polywood-type material (similar appearance/finish to the benches), be maintenance-free, and be supplied in a neutral/brown/grey colour. • Bins must include a secure lid (flip/rotating or equivalent anti-scavenging design), an internal bag retainer to hold a standard municipal refuse bag, and no side slots/openings that could cause refuse bags to blow out in windy conditions. • All exposed fixings must be stainless steel and tamper-proof/anti-theft, and the bins must be securely anchored/fixed to a concrete slab/base or approved hard surface to prevent movement and theft. • The contractor must allow for all materials, labour, tools, transport, anchoring, and making good to complete the installation and hand over the bins ready for use.
6	Outdoor Lighting Infrastructure and Electrical Connection • Supply and install outdoor LED floodlighting luminaires on new poles (and/or where instructed by the Employer) to improve visibility and public safety within the taxi rank. All luminaires shall comply with Specifications Section 6: LED FLOODLIGHTING LUMINAIRES.

	• Poles and foundations: Provide and install hot-dip galvanised steel poles complete with brackets/arms suitable for the luminaires supplied, including concrete foundations, anchor bolts, earthing, and all associated pole-base connection enclosures/boxes as required for a neat and watertight installation. • Luminaires (minimum compliance): • Luminaires shall be delivered completely assembled with housing, driver, LED module and lens, Class 1 to IEC 60598-1, totally enclosed type. • Minimum enclosure rating shall be IP66 for both optical and control gear compartments in accordance with SANS 60529 (when normally mounted). • Luminaires shall be robust, vandal/weather resistant, corrosion and UV resistant, and suitable for Ta 35°C operation. • Neutral white colour temperature 4000K (or 5700K where stated) and CRI ≥ 70. • Lumen maintenance to be L90B10 @ 100 000 hours (unless stated otherwise) and supported by required test/technical documentation as per the specification. • Drivers and surge protection to comply with the specification requirements (including surge withstand capability and replaceable protection where specified), and all luminaires to be correctly labelled/marked as required. • Electrical works (still required): connect new lights to the existing municipal electrical network, including supply and installation of all cabling, sleeves/conduits, trenching/backfilling, isolators, protection devices, photocell/time-switch control (if required), and termination in existing distribution points where instructed. • Compliance: All electrical work to be undertaken by a registered electrical contractor/qualified electrician and, on completion, provide an Electrical Certificate of Compliance (CoC) for the installed work as required by legislation and applicable standards (e.g. SANS 10142-1). • Testing and commissioning: Test, commission and demonstrate operation of all lights; provide basic as-built information showing cable routes and connection/termination points. • Cable laying & reinstatement: Cable trenches shall include soft sand bedding and surround, installation of warning/danger tape, and backfilling/compaction to standard. Allow for minor excavation and the careful lifting and reinstatement of paving/pavers where affected, to the original finish and levels.
7	Completion, Quality Control and Handover • Repair any damage caused by the works and reinstate all disturbed surfaces neatly.

	• Clean the site, remove all surplus material, and hand over the facility in a safe, tidy condition. • Provide a minimum 12-month workmanship warranty and manufacturer warranties for supplied items (signage sheeting, luminaires, etc.). • Allow for a final inspection with the Employer and rectify any defects identified during the defects liability/warranty period.
--	---

If the bidder fails to sign this schedule, it will be interpreted that the bidder does not comply with the Scope of Works and therefore will be regarded as being not eligible.

I hereby declare that I comply with the Scope of Works.

**SCHEDULE 2:
SPECIFICATIONS**

ITEM

1	Attend site handover and confirm final locations/quantities with the Employer. Keep the facility operational and safe for taxis, pedestrians and traders during construction. Provide temporary barricading, cones, warning signs and any required traffic accommodation inside the taxi rank. Comply with the Occupational Health and Safety Act and relevant municipal by-laws; provide PPE and competent supervision. Identify and protect existing municipal services (electrical, underground services, kerbs, surfacing) during construction. Any damage caused by the Contractor must be repaired at the Contractor's cost. Reinstate all disturbed surfaces to match existing finishes.
2	Setting out, measurement and levels for paving areas, trading bays, signage positions and road markings (incl. confirmation with Employer/Traffic).
3	Site clean-up, removal of rubble/spoil and disposal at approved facility (as required).
4	Excavate/trim to formation; compact subgrade; install bedding layer (crusher dust/sand) and compact to levels.
5	Supply and place bedding layer (sand / crusher dust) and compact to receive pavers.
6	Lay pavers in a neat, uniform pattern; compact and joint-fill; ensure stable edges and positive drainage. Supply and install cement pavers to the indicated informal trading areas (approx. 98 m²).
7	Supply crusher dust / selected material base layer (20mm) complete (spread and compact).
8	Provide and install edge restraints where required to prevent movement/spreading.
9	After paving, paint borders to create 3 m x 3 m trading squares. Number each bay as directed by the Employer. Use durable exterior-grade paint suitable for paving/trafficable surfaces.
10	Supply and install approx. 10 eco-friendly outdoor benches, 1.2 m (two-seater) with handrails and backrest, grey colour. Securely fix/anchor benches to prevent movement and theft; reinstate mounting areas neatly.

11	Supply and install eco-friendly outdoor litter bins (single unit), heavy-duty and vandal-resistant, lockable and weatherproof.
12	Manufacture, supply and erect all road/traffic signs as per the municipal Traffic Department schedule and applicable SADC/SARTSM requirements. Sign faces: minimum 1.4 mm Chromadek steel with Class 1 retro-reflective sheeting. Supports: 76 mm Ø hot-dip galvanised poles, capped; install plumb and to correct heights/offsets. Fixings: stainless-steel tamper-proof/anti-theft fasteners. Concrete footings/foundations included; reinstate disturbed areas neatly.
13	Traffic Signage: One-way (Left/Right) (Sign Code: R103/R104) incl. galvanised pole (76mm), concrete footing and anti-theft fixings.
14	Traffic Signage: Speed Limit 10 km/h (Sign Code: R201-60) incl. galvanised pole (76mm), concrete footing and anti-theft fixings.
15	Traffic Signage: Taxi Rank Reservation (Sign Code: R303-P) incl. galvanised pole (76mm), concrete footing and anti-theft fixings.
16	Traffic Signage: Limit of Vehicles (Sign Code: R209) incl. galvanised pole (76mm), concrete footing and anti-theft fixings.
17	Public Safety Signage: Pedestrians (Sign Code: W306) incl. galvanised pole (76mm), concrete footing and anti-theft fixings.
18	Information Signage: (Sign Code: IN11) incl. galvanised pole (76mm), concrete footing and anti-theft fixings.
19	Information Signage: 'No Littering' signs (SABS 1186-1) incl. galvanised pole/fixture and anti-theft fixings.
20	Prepare surfaces (clean, dry, free from dust/oil) and set out markings before application.
21	Apply reflectorised high-build road marking paint complying with SANS 731-1, suitable for heavy wear areas. Protect fresh paint until cured and reopen areas safely.
22	Pedestrian crossing markings (GM1) complete.
23	Directional arrows (RM13) complete.
24	Bay/dividing lines and edge lines (GM2) complete.
25	Taxi bay lettering (RM8) complete.
26	SWA armoured cable 16mm x 4 core.
27	Trench for electrical cabling including reinstatement
28	The luminaire shall be earthed in accordance with Clause 13 of the Electrical Machinery Regulations of the OHSACT (Act 85 of 1993).

	Metal parts of luminaires which may become live in the event of an insulation fault, which are not accessible when the luminaire is mounted but liable to come into contact with the supporting surface, shall be permanently and reliably connected to an earthing terminal and shall withstand the test specified in IEC 60598-2-3. Earthing terminals shall comply with sub-clause 7.2 of IEC 60598-1. All parts of an earth terminal shall be made of brass or other corrosion resistant metal and the contact surfaces shall be bare metal and not painted or varnished surfaces. All earth connections shall be affected by means of suitable lugs appropriately made to avoid all possibility of electrolytic corrosion. An earth connection shall be provided in all instances, even if the luminaire is fully insulated and even if all conductive parts, which could become live in the event of an insulation fault, are not accessible. This is to facilitate future wiring should the luminaire be replaced by a unit which requires an earth connection. The internal wiring of the luminaires shall be flexible and suitably insulated to withstand the voltage and the temperature encountered in service. Wiring colours shall be: live-brown (or red), neutral-blue (or black) and earth-green/yellow.
29	The luminaires shall be delivered completely assembled with housing, driver, LED module and lens. Luminaires shall be Class 1 of IEC 60598-1 and be of the totally enclosed type. The luminaire output shall be provided as output flux at Tq of 25 °C, Nominal flux will not be considered. The colour temperature of the luminaires shall be neutral white, 4 000K or 5700K where stated. No other colour temperature will be accepted. The colour rendering index of the luminaires shall be 70 (minimum). The performance of LED luminaires shall be verified by designing the lighting of the appropriate road as per SANS ARP 035 on request. The luminaires shall deliver 90% of the initial lumens, when installed for 100 000 hours with a 10% maximum LED failure rate (L90B10) unless stated otherwise elsewhere. The bidder shall provide a lumen depreciation graph by means of the IES LM 80-08 data of the LEDs. The LED light source test data shall provide the expected data for at least 25% of rated LED light source lifetime, i.e. 15 000hrs The following information and conditions shall be met, and the manufacturer shall supply test data that includes, but is not limited to, the following: The LED light source(s) have been tested according to LM-80-08. The LED drive current specified by the luminaire manufacturer is less than or equal to the drive current specified in the LM-80 test report. The LED light source(s) manufacturer prescribes/indicates a temperature measurement point (Ts) on the light source(s).

The Ts is accessible to allow temporary attachment of a thermocouple for measurement of in-situ temperature. Access via a temporary hole in the housing, tightly resealed during testing with putty or other flexible sealant is allowable. For the hottest LED light source in the luminaire, the temperature measured at the Ts is less than or equal to the temperature specified in the LM-80 test report for the corresponding drive current.

Temperature sensors shall be fitted as protection devices to the luminaire, placed directly next to the LEDs. These shall not switch off the luminaire completely. Full details of how the luminaire manages its temperature through the use of sensors and the effect on lumen maintenance shall be supplied.

The luminaire shall be designed in such a manner that there is a thermal separation between the optical and gear compartments. This will allow air to freely flow through and ensure optimal cooling of the luminaire especially during possible daytime maintenance.

Lifespan estimation deterioration curves of LED to be submitted for various design currents, e.g. 350 mA, 500 mA, 700 mA, etc. on request.

The complete assembly and testing of the LED luminaire/s shall be undertaken in South Africa, within an ISO 9001 certified factory.

Luminaires shall further comply with the following standards:

IEC 55015 "Limits and methods of measurements of radio disturbance characteristics of electrical lighting and similar equipment"

IEC 5502 "Information technology equipment. Radio disturbance characteristics."

IEC 61000-4-5 "Electromagnetic compatibility (EMC) - Surge immunity test"

The luminaires shall have minimum rating of IP 66 in accordance with SANS 60529 for both the control gear (driver) and optical (LED engine) compartments, when normally mounted as per SANS 475.

The housing shall be robustly constructed, weatherproof, hailproof, insectproof, corrosion proof, ultra-violet light resistant and vandal resistant. Luminaires shall be suitable for operation at an ambient temperature, Ta, of 35 °C. Fixing devices, junctions, lips and the like shall be designed to shed water. Pockets and ledges in which condensation may accumulate shall be avoided.

The luminaires shall contain a heat sink with no fans, pumps or liquids, and the design of the heat sink shall prevent the accumulation of dirt and nesting of insects or ants, thus ensuring effective heat dissipation. Heat from the LED source should take the shortest path to the exterior by direct conduction or any other reliable form of cooling that will not compromise the useful life of the LEDs.

Luminaires shall have a minimum degree of protection of IP66 for the optical and control gear compartments.

The cooling fins shall be designed in such a manner to prevent the accumulation of dirt, thus ensuring the continuous effective cooling.

The luminaires shall have die cast aluminium housings and shall be of grade EN1706 AC44300, (or higher) aluminium alloy. Bidders shall submit a metallurgical report from an independent metallurgist confirming the grade of aluminium for all the luminaires offered. The Municipality reserves the right to submit luminaires for metallurgical testing when necessary.

The luminaires shall be supplied in raw aluminium finish. i.e. The finish shall be unpainted.

Ferrous components shall be hot-dip galvanised and shall withstand the test specified in the current edition of SANS 121 for heavy duty application.

Small components (such as toggle clips, bolts, screws, nuts, washers) shall be manufactured of stainless steel (grade 304 or better).

The driver shall be mounted internally and be replaceable with the aid of commonly available hand tools.

The luminaire housing shall incorporate an IP 68 rated air pressure relief valve to ensure longevity and reliability on the total luminaire IP rating as well as reducing potential condensation on the protector.

The stirrup shall be manufactured from a minimum 6mm x 60mm hot-dipped galvanized steel.

A minimum of three pre-drilled mounting holes shall be provided in the stirrup.

The photometrical lens, covering each individual LED, shall not be exposed directly to the elements of nature and will have a separate high impact, toughened, clear flat glass or polycarbonate protector covering the complete optical (LED) compartment.

The protector shall form a seal completely preventing the entry of moisture, dust and insects into the optical (LED) compartment. A one-piece gasket of silicon sponge material shall be used for this purpose. Gaskets shall not deteriorate or suffer permanent deformation due to light, heat or compression, to which they will be exposed in practice, during the life of the luminaire.

The gasket shall be fitted into a groove in the housing and shall be seated in a manner ensuring the integrity of the IP66 rating and shall not work loose during maintenance of the luminaire.

LED module(s) drivers shall be housed fully within the gear compartment of the luminaire and be suitable for operation with the specified rating of luminaire.

The output frequency of the drivers shall be 100 Hz or greater, to avoid visible flicker.

The LED module driver(s) shall operate at a power factor of 0,95 or greater, and the total harmonic distortion levels shall be less than 20% so as to not cause

interference on the electrical network and shall comply with the limits given in SANS 61000-3-2.

The control gear (or driver) compartment shall be sealed.

The control gear (or driver) compartment shall be so designed that there is sufficient space to permit repairs, replacement of components and reassembly without difficulty and without the removal of the luminaire from its mounting.

The power supply or driver shall be able to withstand surges of up to 10kV/10kA by means of an external, inline fused surge protection device. This surge protection device shall be easily replaceable and it shall fail in an open circuit mode to protect the luminaire from further surges.

The lifetime of the power supply (driver) shall be 100 000hrs with 90% survival over the lifetime.

The power supply (driver) shall incorporate a thermal switch to prevent exceeding the case temperature for maximum life time of equipment.

Protection against electric shock shall be maintained for all methods and positions of installation in normal use. Protection shall also be maintained after removal of all parts which can be removed by hand.

Wiring to the LED module compartment shall be suitably grommited, ensuring a perfect seal between compartments and protection of the wiring.

The supply terminals shall accept 4mm² wires and be easily accessible. No part of the cover shall damage the supply wires when closed.

Although the LED floodlight luminaire shall be supplied with a specific and stated optic distribution, various different optic distributions shall be available as a standard, at no extra cost. This is to ensure that specific distributions may be considered, per project type, for upgrading of existing installations as well as new installations.

Due to most installations being a retrofit of existing infrastructure, a maximum weight & aerodynamic resistance limit will apply for the replacement unit to ensure that historical pole loading is not exceeded.

Detail of each is below:

Each luminaire shall be distinctly marked in clear lettering on the outside of the control gear compartment, with the following information:

Rated wattage of luminaire in accordance with the description specified, e.g. 50 W LED;

The name of supplier followed by the luminaire model, e.g. SUPPLIER X, LUMINAIRE MODEL NAME

Each luminaire shall bear the name or trade mark of the manufacturer and the date of manufacture

Luminaires delivered without the specified markings shall be rejected.

	Full technical and descriptive details, relating to all the items offered in this enquiry shall be submitted so the offer can be fully evaluated. Failure to provide the documents & test reports below may result in the rejection of the Bid: This shall include: • Name of LED luminaire: • Luminaire product sheet stating all relevant information ie, weight, aerodynamic resistance, wattage, output lux, ect. • LM-80-08 test report for the LED's used in the luminaire • Type test according to IEC 60598-1:2004 and IEC 60598-2-5:2003 • IP rating test reports for all items offered in accordance with SANS 60529. • Impact resistance report of all luminaires offered • Bidders shall submit a metallurgical report confirming the grade of aluminium of the aluminium housings. • ISO 9001:2015 certificate of the factory producing the luminaires • The test reports shall be issued by SANS or IEC accredited test authority. • All luminaires offered shall have a minimum guarantee period of five years. If luminaires are found to have failed within this period as a result of poor manufacturing processes and/or poor materials it shall be replaced free of charge by the manufacturer.
30	Supply and install 9m galvanised street light pole with base.
31	Supply contactor for street light controls
32	30A 3 phase circuit breaker.
33	Day light switch eye.
34	Bypass switch.
35	Each luminaire shall be delivered completely assembled ready for use and shall be individually packed in suitable containers such as cardboard boxes. The containers shall be marked with appropriate description and stock code of the luminaire contained within.
36	All installations must be neat, plumb/level, and fit for purpose for a high-use public facility. Materials must be new and suitable for outdoor public environments. The Employer may reject substandard work/materials and require replacement. Provide as-built information for lighting (connection points and basic cable routes) and a commissioning checklist. Provide manufacturer datasheets/warranties for key components (sign sheeting, luminaires, etc.). Provide minimum 12-month workmanship warranty. Remove rubble/waste and leave site clean and safe.

	Final inspection with the Employer; rectify snag items before handover.

SCHEDULE 4: SPECIAL CONDITIONS OF QUOTATION
--

Use of Local Labour (TWK Area):

The successful bidder must, as far as reasonably practicable, utilise local labour residing within the Theewaterskloof Municipal area (TWK) for all non-specialised and semi-skilled work where such skills are available locally.

Local labour must be prioritised for tasks such as (but not limited to) **general labour, offloading, site cleaning, minor installation assistance, trenching/hand excavation where applicable, and basic construction support**, subject to the contractor's supervision and health and safety requirements.

Sourcing of Materials and Equipment Locally:

The successful bidder must, where materials, consumables, tools and/or plant required for the works are reasonably available at competitive market-related prices within the TWK municipal area, source such items locally.

Local sourcing must not compromise **quality, compliance, safety, or project timelines**. Where local items are unavailable or not compliant, the bidder may procure externally, provided reasons can be furnished upon request.

The Municipality reserves the right to request evidence of compliance with the above conditions, including **local labour records, supplier quotations/invoices**, and/or a brief **local procurement summary** during execution or at completion of the project.

If the bidder fails to sign this schedule, it will be interpreted that the bidder does not comply with the Special Conditions of Quotation and therefore will be regarded as being not eligible.

I hereby declare that I comply with the Special Conditions of Quotation.

PART B
TERMS AND CONDITIONS FOR BIDDING

1. BID SUBMISSION:

- 1.1. BIDS MUST BE DELIVERED BY THE STIPULATED TIME TO THE CORRECT ADDRESS. LATE BIDS WILL NOT BE ACCEPTED FOR CONSIDERATION.
- 1.2. **ALL BIDS MUST BE SUBMITTED ON THE OFFICIAL FORMS PROVIDED–(NOT TO BE RE-TYPED) OR ONLINE**
- 1.3. THIS BID IS SUBJECT TO THE PREFERENTIAL PROCUREMENT POLICY FRAMEWORK ACT AND THE PREFERENTIAL PROCUREMENT REGULATIONS, 2022, THE GENERAL CONDITIONS OF CONTRACT (GCC) AND, IF APPLICABLE, ANY OTHER SPECIAL CONDITIONS OF CONTRACT.

2. TAX COMPLIANCE REQUIREMENTS

- 2.1 Bidders must ensure compliance with their tax obligations.
- 2.2 Bidders are required to submit their unique personal identification number (pin) issued by sars to enable the organ of state to view the taxpayer's profile and tax status.
- 2.3 Application for the tax compliance status (tcs) certificate or pin may also be made via e-filing. In order to use this provision, taxpayers will need to register with sars as e-filers through the website www.sars.gov.za.
- 2.4 Foreign suppliers must complete the pre-award questionnaire in part b:3.
- 2.5 Bidders may also submit a printed tcs certificate together with the bid.
- 2.6 In bids where consortia / joint ventures / sub-contractors are involved, each party must submit a separate tcs certificate / pin / csd number.
- 2.7 Where no tcs is available but the bidder is registered on the central supplier database (csd), a csd number must be provided.

3. QUESTIONNAIRE TO BIDDING FOREIGN SUPPLIERS

- | | |
|--|--|
| 3.1. IS THE ENTITY A RESIDENT OF THE REPUBLIC OF SOUTH AFRICA (RSA)? | ☐ YES ☐ NO |
| 3.2. DOES THE ENTITY HAVE A BRANCH IN THE RSA? | ☐ YES ☐ NO |
| 3.3. DOES THE ENTITY HAVE A PERMANENT ESTABLISHMENT IN THE RSA? | ☐ YES ☐ NO |
| 3.4. DOES THE ENTITY HAVE ANY SOURCE OF INCOME IN THE RSA? | ☐ YES ☐ NO |
| 3.5. IS THE ENTITY LIABLE IN THE RSA FOR ANY FORM OF TAXATION? | ☐ YES ☐ NO |

IF THE ANSWER IS "NO" TO ALL OF THE ABOVE, THEN IT IS NOT A REQUIREMENT TO REGISTER FOR A TAX COMPLIANCE STATUS SYSTEM PIN CODE FROM THE SOUTH AFRICAN REVENUE SERVICE (SARS) AND IF NOT REGISTER AS PER 2.3 ABOVE.

NB: FAILURE TO PROVIDE ANY OF THE ABOVE PARTICULARS MAY RENDER THE BID INVALID. NO BIDS WILL BE CONSIDERED FROM PERSONS IN THE SERVICE OF THE STATE.

SIGNATURE OF BIDDER:

CAPACITY UNDER WHICH THIS BID IS SIGNED:

MBD 2 – TAX CLEARANCE CERTIFICATE REQUIREMENTS

It is a condition of bid that the taxes of the successful bidder must be in order, or that satisfactory arrangements have been made with South African Revenue Services (SARS) to meet the bidder's tax obligations.

1. In order to meet this requirement, bidders are required to complete in full the TCC 0001 form, "Application for a Tax Clearance Certificate" and submit it to any SARS branch office nationally or on the website www.sars.gov.za. The Tax Clearance Certificate Requirements are also applicable to foreign bidders / individuals who wish to submit bids.
2. Applications for the Tax Clearance Certificates may also be made via e-Filing. In order to use this provision, taxpayers will need to register with SARS as e-Filers through the website www.sars.gov.za
3. SARS will then furnish the bidder with a Tax Clearance Certificate that will be valid for a period of 1 (one) year from the date of approval.
4. In bids where Consortia / Joint Ventures / Sub-Contractors are involved, each party must submit a separate Tax Clearance Certificate.
5. Tax Compliance Status (TCS) Pin as of 18 April 2016
 - a. In terms of the new Tax Compliance Status System implemented by SARS on 18 April 2016, taxpayers are now able to issue the municipality with a TCS Pin which can be used to verify a bidder's tax status online via SARS E-filing.
 - b. The taxpayer must issue the municipality with the following:

Bidders who are not in possession of an original Tax Clearance Certificate must provide at least 2 of the 3 numbers listed below in order to verify the Tax Clearance Certificate via SARS e-filing.

1. Tax Reference Number	
2. Tax Compliance Status Pin	
3. Tax Clearance Certificate Number:	

- c. If a bidder is registered on the Theewaterskloof Municipality Supplier's Database and the Municipality is already in possession of an original tax clearance certificate which is valid on closing date of bid, it **MUST** be indicated as such on this page, whereby the attaching of a new tax clearance certificate to this page will not be needed.
6. Should a Tax Clearance Certificate not be verifiable on the SARS e-filing system, the bidder will be afforded an opportunity to submit a valid, verifiable Tax Clearance Certificate. It will result in the invalidation of the bid, should the bidder fail to provide a valid, verifiable Tax Clearance Certificate.

**SCHEDULE 2:
MBD 4 – DECLARATION OF INTEREST**

1. No bid will be accepted from persons in the service of the state¹.
2. Any person, having a kinship with persons in the service of the state, including a blood relationship, may make an offer or offers in terms of this invitation to bid. In view of possible allegations of favouritism, should the resulting bid, or part thereof, be awarded to persons connected with or related to persons in service of the state, it is required that the bidder or their authorised representative declare their position in relation to the evaluating/adjudicating authority.
- 3 **In order to give effect to the above, the following questionnaire must be completed and submitted with the bid.**

3.1 Full Name of bidder or his or her representative:

3.2 Identity Number:

3.3 Position occupied in the Company (director, trustee, shareholder²):

3.4 Company Registration Number:

3.5 Tax Reference Number:

3.6 VAT Registration Number:

3.7 The names of all directors / trustees / shareholders members, their individual identity numbers and state employee numbers must be indicated in paragraph 4 below.

3.8 Are you presently in the service of the state? **YES / NO**

3.8.1 If yes, furnish particulars.

.....

.....

¹MSCM Regulations: "in the service of the state" means to be –

(a) a member of –

- (i) any municipal council;
- (ii) any provincial legislature; or
- (iii) the national Assembly or the national Council of provinces;

(b) a member of the board of directors of any municipal entity;

(c) an official of any municipality or municipal entity;

(d) an employee of any national or provincial department, national or provincial public entity or constitutional institution within the meaning of the Public Finance Management Act, 1999 (Act No.1 of 1999);

(e) a member of the accounting authority of any national or provincial public entity; or

(f) an employee of Parliament or a provincial legislature.

² Shareholder" means a person who owns shares in the company and is actively involved in the management of the company or business and exercises control over the company.

3.9 Have you been in the service of the state for the past twelve months? **YES / NO**

3.9.1 If yes, furnish particulars.....

.....

3.10 Do you have any relationship (family, friend, other) with persons in the service of the state and who may be involved with the evaluation and or adjudication of this bid? **YES / NO**

3.10.1 If yes, furnish particulars.

.....

.....

3.11 Are you, aware of any relationship (family, friend, other) between any other bidder and any persons in the service of the state who may be involved with the evaluation and or adjudication of this bid? **YES / NO**

3.11.1 If yes, furnish particulars

.....

.....

3.12 Are any of the company's directors, trustees, managers, principle shareholders or stakeholders in service of the state? **YES / NO**

3.12.1 If yes, furnish particulars.

.....

.....

3.13 Are any spouse, domestic partner, dependent child or relative living in a common household, a grandparent, parent, nondependent child, grandchild, brother or sister, a parent-in-law, a brother-in-law or a sister-in-law of the company's directors trustees, managers, principle shareholders or stakeholders in service of the state? **YES / NO**

3.13.1 If yes, furnish particulars.

.....

.....

.....

.....

.....

.....

3.14 Do you or any of the directors, trustees, managers, principle shareholders, or stakeholders of this company have any interest in any other related companies or business whether or not they are bidding for this contract. **YES / NO**

3.14.1 If yes, furnish particulars:

.....

.....

.....

.....

4. Full details of directors / trustees / members / shareholders.

PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022

This preference form must form part of all tenders invited. It contains general information and serves as a claim form for preference points for specific goals.

NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022

1. GENERAL CONDITIONS

- 1.1 The following preference point systems are applicable to invitations to tender:
- the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
 - the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2 **To be completed by the organ of state**

The **80/20 preference point system** will be applicable in this tender. The lowest/highest acceptable tender will be used to determine the accurate system once tenders are received.

- 1.3 Points for this tender (even in the case of a tender for income-generating contracts) shall be awarded for:

- (a) Price; and
- (b) Specific Goals.

1.4 **To be completed by the organ of state:**

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	80
SPECIFIC GOALS	20
Total points for Price and SPECIFIC GOALS	100

- 1.5 Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.
- 1.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

2. DEFINITIONS

- (a) “**tender**” means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- (b) “**price**” means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- (c) “**rand value**” means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- (d) “**tender for income-generating contracts**” means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) “**the Act**” means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

3.1.1 THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS

A maximum of 80 or 90 points is allocated for price on the following basis:

$$\begin{array}{ccc} \mathbf{80/20} & \mathbf{or} & \mathbf{90/10} \\ \\ \mathbf{Ps = 80 \left(1 - \frac{Pt - P_{min}}{P_{min}} \right)} & \mathbf{or} & \mathbf{Ps = 90 \left(1 - \frac{Pt - P_{min}}{P_{min}} \right)} \end{array}$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmin = Price of lowest acceptable tender

3.2. FORMULAE FOR DISPOSAL OR LEASING OF STATE ASSETS AND INCOME GENERATING PROCUREMENT

3.2.1. POINTS AWARDED FOR PRICE

A maximum of 80 or 90 points is allocated for price on the following basis:

$$\begin{array}{ccc} \mathbf{80/20} & \mathbf{or} & \mathbf{90/10} \\ \\ \mathbf{Ps = 80 \left(1 + \frac{Pt - P_{max}}{P_{max}} \right)} & \mathbf{or} & \mathbf{Ps = 90 \left(1 + \frac{Pt - P_{max}}{P_{max}} \right)} \end{array}$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmax = Price of highest acceptable tender

4. POINTS AWARDED FOR SPECIFIC GOALS

4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:

4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—

(a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or

(b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,

then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.

POINTS AWARDED FOR B-BBEE STATUS LEVEL OF CONTRIBUTOR

B-BBEE status level of contributor	Number of points allocated in terms of B-BBEE score card	Points claimed by the bidder (bidder to indicate
1	10	5
2	9	4.5
3	8	4
4	6	2.5
5	4	2
6	3	1.5
7	2	1
8	1	0.5
Non-Compliant contributor	0	0

Table 1: Specific goals for the tender and points claimed are indicated per the table below.

Note to tenderers: The tenderer must indicate how they claim points for each

preference point system.)

MBD 8 – DECLARATION OF BIDDER'S PAST SUPPLY CHAIN MANAGEMENT PRACTICES

1. This Municipal Bidding Document must form part of all bids invited.
2. It serves as a declaration to be used by municipalities and municipal entities in ensuring that when goods and services are being procured, all reasonable steps are taken to combat the abuse of the supply chain management system.
3. The bid of any bidder may be rejected if that bidder, or any of its directors have:
 - a. abused the municipality's / municipal entity's supply chain management system or committed any improper conduct in relation to such system;
 - b. been convicted for fraud or corruption during the past five years;
 - c. willfully neglected, reneged on or failed to comply with any government, municipal or other public sector contract during the past five years; or
 - d. been listed in the Register for Tender Defaulters in terms of section 29 of the Prevention and Combating of Corrupt Activities Act (No 12 of 2004).
4. In order to give effect to the above, the following questionnaire must be completed and submitted with the bid.

Item	Question	Yes	No
4.1	Is the bidder or any of its directors listed on the National Treasury's Database of Restricted Suppliers as companies or persons prohibited from doing business with the public sector? (Companies or persons who are listed on this Database were informed in writing of this restriction by the Accounting Officer/Authority of the institution that imposed the restriction after the <i>audi alteram partem</i> rule was applied). The Database of Restricted Suppliers now resides on the National Treasury's website (www.treasury.gov.za) and can be accessed by clicking on its link at the bottom of the home page.	Yes ☐	No ☐
4.1.1	If so, furnish particulars:		
4.2	Is the bidder or any of its directors listed on the Register for Tender Defaulters in terms of section 29 of the Prevention and Combating of Corrupt Activities Act (No 12 of 2004)? The Register for Tender Defaulters can be accessed on the National Treasury's website (www.treasury.gov.za) by clicking on its link at the bottom of the home page.	Yes ☐	No ☐
4.2.1	If so, furnish particulars:		
4.3	Was the bidder or any of its directors convicted by a court of law (including a court of law outside the Republic of South Africa) for fraud or corruption during the past five years?	Yes ☐	No ☐

4.3.1	If so, furnish particulars:		
Item	Question	Yes	No
4.4	Does the bidder or any of its directors owe any municipal rates and taxes or municipal charges to the municipality / municipal entity, or to any other municipality / municipal entity, that is in arrears for more than three months?	Yes ☐	No ☐
4.4.1	If so, furnish particulars:		
4.5	Was any contract between the bidder and the municipality / municipal entity or any other organ of state terminated during the past five years on account of failure to perform on or comply with the contract?	Yes ☐	No ☐
4.5.1	If so, furnish particulars:

MBD 9 – CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1, the undersigned, in continuing the above party, do hereby

in response to the invitation for the bid made by:

do hereby make the following statements that I certify to be true and complete in every respect:

I certify, on behalf of: _____ that:

(Name of Bidder)

1. I have read and I understand the contents of this Certificate;
2. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign, the bid, on behalf of the bidder;
5. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:
 - (a) has been requested to submit a bid in response to this bid invitation;
 - (b) could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
 - (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder
6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.
7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
 - (a) prices;
 - (b) geographical area where product or service will be rendered (market allocation)
 - (c) methods, factors or formulas used to calculate prices;
 - (d) the intention or decision to submit or not to submit, a bid;
 - (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
 - (f) bidding with the intention not to win the bid.
8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.
